NOTES FOR CONTRIBUTORS

1. *Revista Mexicana de Análisis Político y Administración Pública* (*REMAP*) accepts original contributions in Spanish and English about topics related to the broad scope of political science, such as: comparative politics; public policy; political institutions; international relations; public management; methods in political science and public administration, among others. Articles submitted should not be under consideration for any other publication at the same time. If another version of the article is under consideration by another publication, or has been, or will be published elsewhere, authors should clearly indicate this at the time of submission.

2. *REMAP* will publish call for papers (www.remap.ugto.mx) for each volume and deadlines for submission. However, authors are invited to submit at any time as we constantly receive collaborations that could be considered for subsequent volumes: articles, essays, research notes, and review or critique to publish material in the journal.

3. The Editorial Committee will decide the nature and eligibility of the contribution based on the editorial guidelines. Submissions will be refereed by two specialists on the subject, who will assess originality, relevance and methodological coherence of the document. In case of a draw in the refereeing process, the Editorial Committee will send the document to a third referee.
